

# Anupam Singh

## **GENERAL MANAGER, DATA WAREHOUSING, CLUDERA**

Anupam is general manager, Data Warehousing, at Cloudera. Previously, Anupam was the co-founder and CEO of Xplain.io, which Cloudera acquired in 2015, a company whose technology accelerates self-service BI with a massively scalable SQL workload analyzer. Prior to Xplain.io, Anupam was the co-founder and CTO at Joviandata, a pioneer in combining the power of Hadoop and the cloud. Joviandata was acquired by Marketshare, where Anupam led the effort to combine machine learning techniques with Hadoop-based data warehousing. Anupam built his database expertise on the SQL Query Optimizer teams at Oracle, Sybase (now SAP), and Informix (now IBM). He graduated from Pune University in India and holds patents in the areas of automatic SQL performance tuning, object databases, and resilient query execution.
