Agentic AI: Accelerate your AI Journey

A Proof of Value AI use case, powered by your own data on AWS

As enterprises embrace AI, they face critical challenges: integrating AI models with diverse enterprise data, ensuring data privacy and security, and deploying models with scalability. Successfully implementing AI requires expertise to address these challenges, from selecting the right models and infrastructure to managing compliance and operational risks. Many AI solutions necessitate sending sensitive data to external models, raising compliance and governance concerns. Organizations need a secure, scalable approach that allows them to bring models to their data within their AWS environment, ensuring cutting-edge AI capabilities while maintaining control.

Agentic AI Pilot on AWS with Cloudera Professional Services

This is a hands-on professional services engagement designed to accelerate adoption of AI agents within your enterprise by leveraging Cloudera on AWS. We will guide you through implementing an AI Proof of Value use case using your own data, leveraging open-source large language models (LLMs) privately hosted within your Cloudera AI environment on AWS. We also include enablement and training, providing the foundational knowledge to build your own AI solutions in Cloudera AI on AWS.

Agentic AI on AWS: Engagement Outcomes

Platform Readiness

Create POC environment in existing customer AWS tenant

AI Use Case Prototype

Implement a prototype for RAG and Agentic AI use case using on customer data (PDFs)

Cloudera Education

On Demand Library + 1 day immersion for 16 people

Why choose Cloudera Professional Services

- **Extensive technical expertise** – Cloudera's global services team brings unmatched experience designing, architecting and implementing open source data & AI solutions for the enterprise.
- **Proven delivery accelerators** – Cloudera combines deep experience with a toolkit of accelerators to cut delivery from months to weeks – reducing risk, driving innovation, and faster ROI on data investments.
- **Comprehensive service offerings** – From on-premises to cloud, Cloudera supports your entire data journey – ranging from solution design, to implementation and production readiness across Data In Motion, Data Lakehouse, & AI.
- **Enterprise-grade design principals** – Helping build secure, portable, and well documented data applications – ensuring governance, hybrid cloud flexibility, and retained knowledge.
- **Driven by customer success** – Cloudera is built around the success of its customers – driving measurable outcomes and aligning every engagement to client goals and long-term impact.

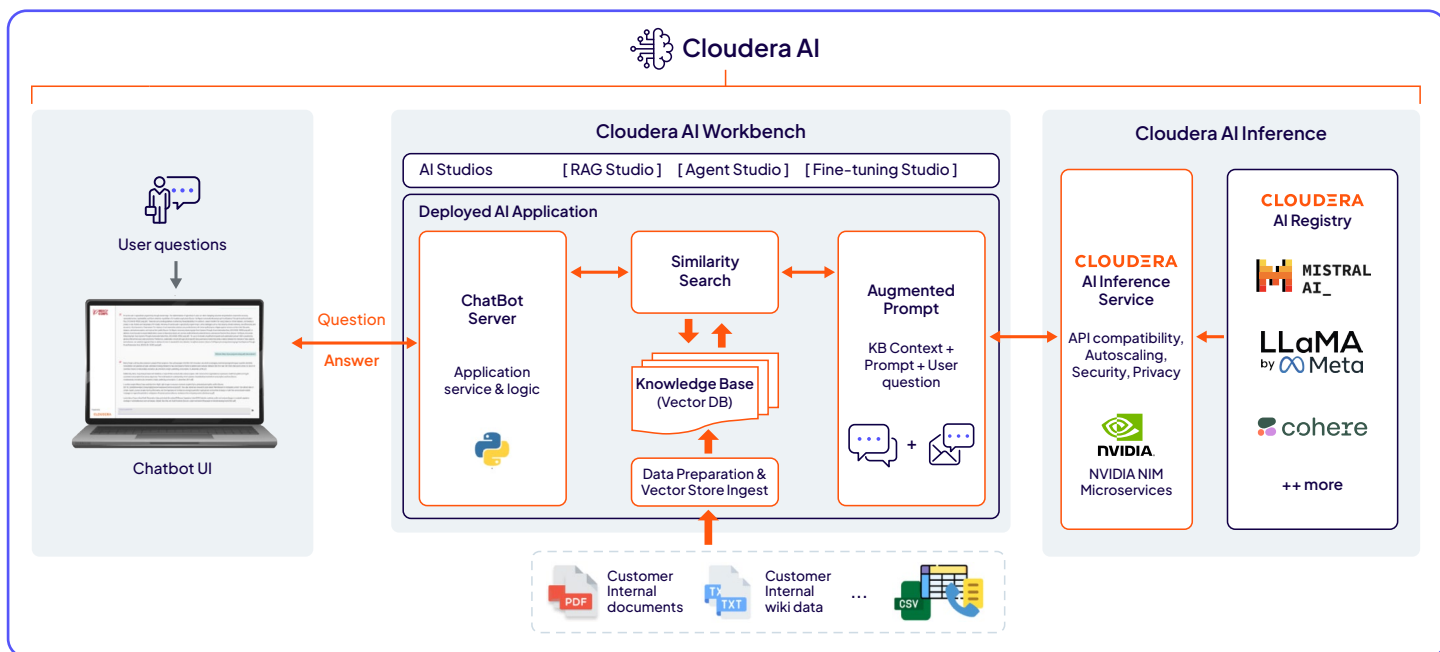

Start the journey today

Learn more at cloudera.com

Our pilot offering bundles outcome-driven engagements with a reference implementation enabling you to:

- Build a RAG Solution for enabling your team by delivering institutional knowledge with an AI assistant (up to 100 pdfs)
- Enhance your RAG Solution adding an Agentic AI workflow to reach out for web research to provide additional results with multi-steps reasoning
- Build your AI foundation blueprint for your first AI use case leveraging your private data

Key Benefits

- **Faster Time to Value:** Leverage existing professional services accelerators to deliver your first AI blueprint for AWS
- **Lower Total Cost of Ownership (TCO):** Utilize an accelerated computing platform with NVIDIA NIM microservices to speed GenAI application development
- **Optimize Productivity:** Achieve over 70% increased productivity through chatbot and agent AI use cases
- **Flexible and Secure Platform:** Support AWS solutions and any open-source LLMs & Agents in a secured environment with your private data, including Bedrock integration

Typical Engagements

- **Timed-Box Services** for 7 weeks
- **Building a RAG solution** for institutional knowledge with an AI assistant (up to 100 PDFs)
- **Enhancing the RAG solution** with an Agentic AI workflow for web research and multi-step reasoning
- **Establishing your AI foundation blueprint** for your first AI use case leveraging private data on AWS

Cloudera Professional Services & Training

AI success requires more than just technology—it needs expertise, strategic implementation, and a scalable foundation. With Cloudera Professional Services, you gain a trusted partner to help you navigate AI complexities, ensuring security, compliance, and long-term success.

Partner with Cloudera on architecture, design, security, platform, cloud, data engineering, AI engineering, and more. Our depth of experience across thousands of projects and deep alignment with Cloudera's engineering, product, industry, and support teams make us a trusted partner to empower your teams on your modern data cloud & AI journey with Cloudera on AWS.

CLUSTERA

Cloudera, Inc. | 5470 Great America Pkwy, Santa Clara, CA 95054 USA | cloudera.com

Cloudera is the only data and AI platform company that large organizations trust to bring AI to their data anywhere it lives. Unlike other providers, Cloudera delivers a consistent cloud experience that converges public clouds, on-prem data centers, and the edge, leveraging a proven open-source foundation. As the pioneer in big data, Cloudera empowers businesses to apply AI and assert control over 100% of their data, in all forms, improving security, governance, and real-time and predictive insights. The world's largest brands across all industries rely on Cloudera to transform decision-making and ultimately boost bottom lines, safeguard against threats, and even save lives.
