

EXTEND YOUR ON-PREMISES STREAMING TO THE PUBLIC CLOUD

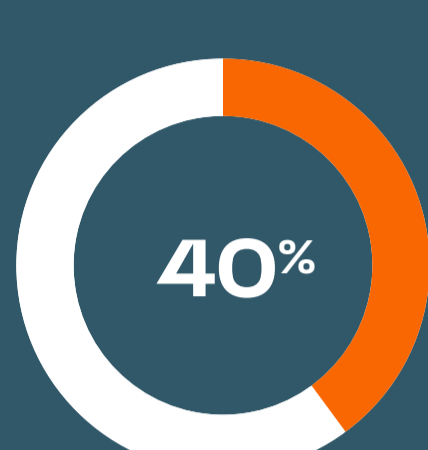

Your Opportunity to Go Hybrid

THE CHALLENGE

Enterprises are continuously inundated with streaming data that hinders their ability to capture, process, and harness them in real time

79ZB

Billions of devices will generate 79ZB of data by 2025¹

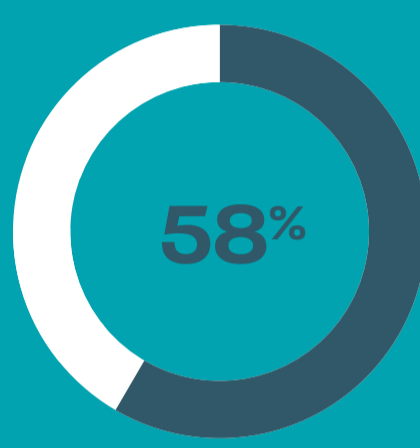

41.5B

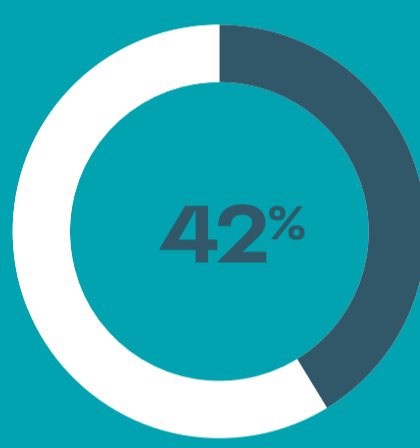

41.5 billion IoT devices will activate by 2025¹

40% of manufacturers will use **field asset IoT data** to intelligently diagnose issues¹

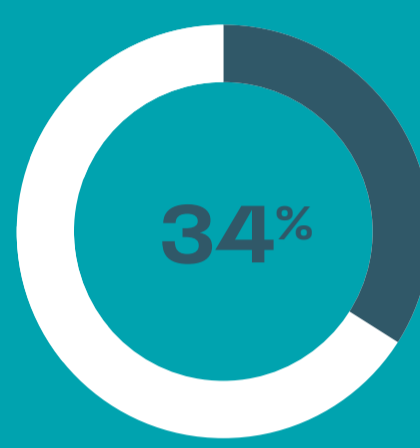

Enterprises are trending towards hybrid and multi-cloud architectures²

Enterprises moving toward hybrid environment

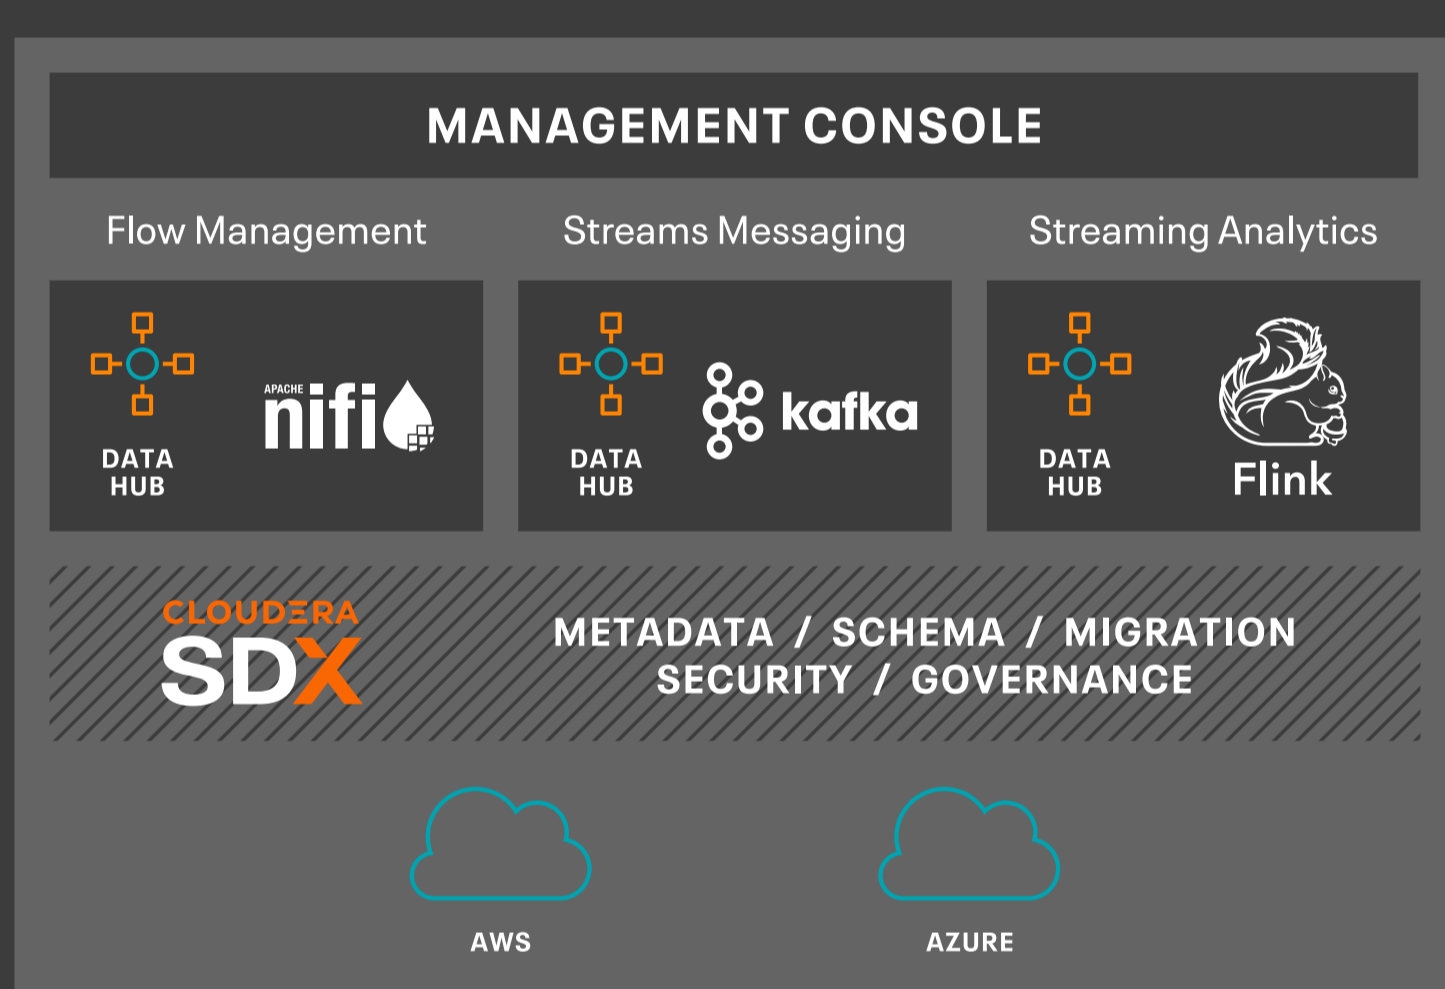

Enterprises considering or developing a hybrid IT Strategy

Enterprises executing a hybrid IT Strategy

CLUDERA DATAFLOW FOR DATA HUB

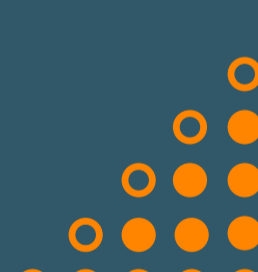

Cludera DataFlow for Data Hub makes hybrid use cases possible by extending on-premises flow management, streams messaging, and stream processing and analytics capabilities to the public cloud

BENEFITS OF CLUDERA DATAFLOW FOR DATA HUB

Reduce data integration development time

Accelerate streams messaging

Democratize real-time insights with streaming analytics

Manage and secure your data from edge to cloud

Cludera helped our organization get to the next level by providing us with a streaming data platform, which provides us with real-time data.

Martijn Groen,
IT lead of the Data Lake, Rabobank
